All canoes must be made of ABS and conform to the 16% rule; the width of the canoe at the 4 inch waterline must be at least 16% of the canoe length. Generally any unmodified commercial ABS canoe will satisfy this requirement. However, some such as the Dagger Sojourn do not meet this requirement. If you have questions regarding your canoe contact Ed Sharp (see below). Canoes maybe inspected at any time for compliance.

### CANOE TYPE
